

# Meter Data Management System

## Overview:

The WattageWorks™ Meter Data Management System provides a flexible architecture that Utilities can use to design, build, test and implement robust and scalable Settlement solutions—solutions that allow Utilities to transmit and exchange required meter and settlement data with their respective RTOs or Power Pools.

The architecture allows for developing solutions that are compatible with Utilities' unique business systems and their RTO or Power Pool's interface specifications..

- **SPP Compliant, Web-enabled MDMS application**
- **Search capabilities for tracking & viewing settlement areas & locations, meter data, metering points, & xml file submittals**
- **Allows for uploading of estimated meter data**
- **Allows for user definable data validation**
- **Allows for multiple meter data sources that provide a primary & backup meter, which can include feeds from SCADA or billing systems**
- **Flexible & open design allows incorporation of Client and/or RTO-specific functionality and compatibility with 3<sup>rd</sup> party systems**
- **Built using reliable & open technologies**

## Company Profile.

Celeritas Technologies, LLC is an enterprise class, IT consulting company headquartered in Kansas City. In addition to core IT consulting services, Celeritas offers patented and copyrighted solutions for a wide array of industry and business specific problems.
